The main topics of the journal

Forest science, forestry, forest planning, forest inventory
Structure, dynamics and functioning of forest ecosystems
Forest ecosystem functions and their change under global and regional climate processes and anthropogenic impact
Forest geography, ecology and typology
Forest landscape ecology
Forest genetics, selection, breeding and introduction, dendrology
Forest resource science, ethnobotany
Silviculture, forest plantations
Physiology and biochemistry of forest plants
Biotechnology, wood science, chemical processing of wood and non-wood forest products
Dendrochronology
Forest hydrology
Forest fire research
Forest entomology, forest zoological complexes
Forest phytocenology
Forest soil science
Forest health, microbiology, mycology and pathogens
Forest melioration and restoration
Forest policy, economics, management and legislation
Remote sensing and GIS methods applicable for evaluation of biosphere functions of forests.

Sibirskij Lesnoj Zurnal (Siberian Journal of Forest Science) is a multidisciplinary peer-reviewed periodical scientific journal covering a wide range of forest science, forestry, forest management, forest inventory, genetics and breeding, forest ecology and economy issues, and representing the science of complex patterns of the structure, function and development of forest ecosystems and the use of forest resources by man.

Sibirskij Lesnoj Zurnal (Siberian Journal of Forest Science) issues will be published first in Russian (ISSN 2311–1410 (Print), ISSN 2312–2099 (Online)), and then translated to English as Siberian Journal of Forest Science (ISSN 2311–1410).

Sibirskij Lesnoj Zurnal (Siberian Journal of Forest Science) is included to Russian national system of scientific citation eLibrary.ru, the list of scientific periodicals of the Higher Certification Commission, Ministry of Education and Science of the Russian Federation, is indexing in international scientific databases: Ulrichsweb (Global Serials Directory), Directory of Open Access Journals (DOAJ), AGRIS, CABI Forest Science Database, is prepared to be included to the international databases of scientific periodicals: Academic Journals Database, Springer, Scopus, Web of Science. Full-text articles posted online on the journal's website: sibjforsci.com (in English); сибирскийлеснойжурнал.рф (in Russian).

Sibirskij Lesnoj Zurnal (Siberian Journal of Forest Science) publishes scientific papers under the headings: «Summarizing Articles», «Research Articles», «Reports», «Short Communications», «News, Views & Events», and «Book Reviews», aimed at understanding the laws and regularities of forest nature. It covers a variety of topics related to problems of biological diversity at all levels of its organization – population, species, ecosystem, including – articles on anthropogenic and technogenic transformation of forest ecosystems. The journal is not limited to the problems of Siberian forests; it accepts and publishes high quality scientific papers from different regions of the world, representing general scientific interest.

Sibirskij Lesnoj Zurnal (Siberian Journal of Forest Science) is registered by Federal Service for Supervision of Communications, Information Technologies, and Mass Media (Roskomnadzor) of the Russian Federation.

Certificates of registration of the mass media:
