### **The main topics of the journal**

Forest science, forestry, forest planning, forest inventory  
Structure, dynamics and functioning of forest ecosystems  
Forest ecosystem functions and their change under global and regional climate processes and anthropogenic impact  
Forest geography, ecology and typology  
Forest landscape ecology  
Forest genetics, selection, breeding and introduction  
Silviculture, forest plantations  
Physiology and biochemistry of forest plants  
Biotechnology, wood science, chemical processing of wood and non wood forest products  
Dendrochronology  
Forest hydrology  
Forest fire research  
Forest entomology, forest zoological complexes  
Forest phytocenology  
Forest soil science  
Forest health, microbiology, mycology and pathogens  
Forest melioration and restoration  
Forest policy, economics, management and legislation  
Remote sensing and GIS methods applicable for evaluation of biosphere functions of forests.

The Siberian Journal of Forest Science is a multidisciplinary peer-reviewed periodical scientific journal covering a wide range of forest science, forestry, forest management, forest inventory, genetics and breeding, forest ecology and economy issues, and representing the science of complex patterns of the structure, function and development of forest ecosystems and the use of forest resources by man.

*Sibirski Lesnoi Zurnal* (Siberian Journal of Forest Science) issues will be published first in Russian (ISSN 2312–2099 (Online), ISSN 2311–1410 (Print)), and then translated to English as Siberian Journal of Forest Science (ISSN 2311–1410).

*Sibirski Lesnoi Zurnal* (Siberian Journal of Forest Science) is included to Russian national system of scientific citation indexing eLibrary, international scientific database Ulrichsweb (Global Serials Directory), is prepared to be included to the Directory of Open Access Journals (DOAJ), international databases of scientific periodicals: Academic Journals Database, AGRIS, CABI – Agroforestry, Forestry, Forest Products Abstracts, Environmental Science and Forest Science Database, Springer, Scopus, Web of Science, list of scientific periodicals of the Higher Certification Commission, Ministry of Education and Science of the Russian Federation. Full-text articles are posted online on the journal's website: [sibirskijlesnojzurnal.rf](http://sibirskijlesnojzurnal.rf) (in Russian), [sibjforsci.com](http://sibjforsci.com) (in English – currently the articles' abstracts).

The Siberian Journal of Forest Science (*Sibirski Lesnoi Zurnal*) publishes scientific papers under the headings: "Research Articles", "Reports", "Short Communications", "News, Views & Events", "Book Reviews", and "Celebrations", aimed at understanding the laws and regularities of forest nature. It covers a variety of topics related to problems of biological diversity at all levels of its organization – population, species, ecosystem, including – articles on anthropogenic and technogenic transformation of forest ecosystems. The journal is not limited to the problems of Siberian forests; it accepts and publishes high quality scientific papers from different regions of the world, representing general scientific interest.

*Sibirski Lesnoi Zurnal* (Siberian Journal of Forest Science) is registered by Federal Service for Supervision of Communications, Information Technologies, and Mass Media (Roskomnadzor) of the Russian Federation.

Certificates of registration of the mass media:

Periodical print edition, journal – PI N FS77–57511 on April 18, 2014

Periodical online edition – EL N FS77–58241 on June 05, 2014.
